

OUR LOCAL HISTORY
YOUR LOCAL CHOICE

a **Volker Stevin Canada** company

Our commitment to the area

YOUR LOCAL CHOICE

We've been your local choice for over 40 years. With strong roots in the community of Fort McMurray, we're proud to live and work where you do.

Our culture enables us to build and maintain successful partnerships, achieve employee and client goals and actively contribute to a thriving community.

H. Wilson Industries (2010) Ltd is an established and reputable General Contractor located in Fort McMurray, Alberta.

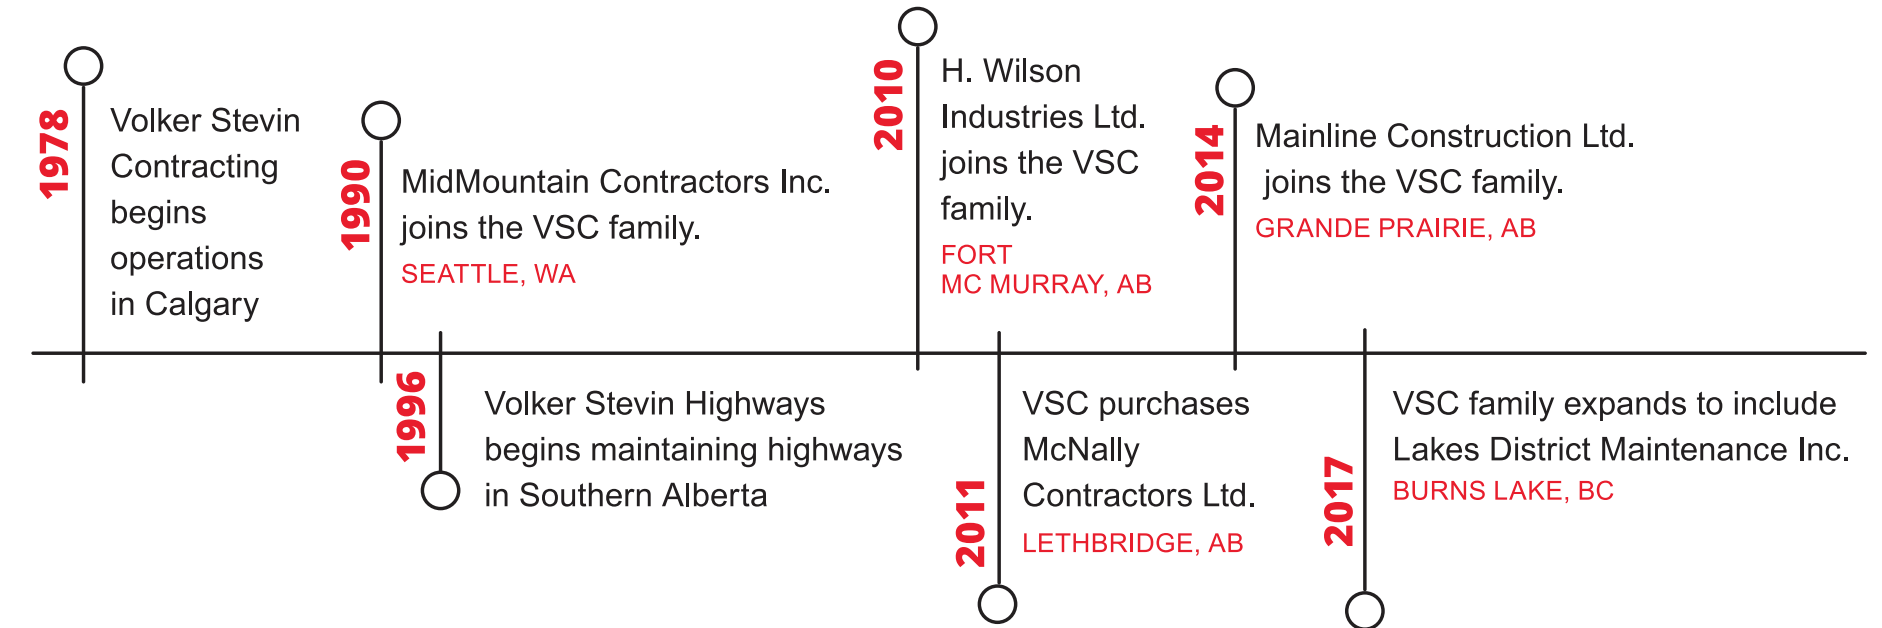

Incorporated in 1977, we have grown and evolved to offer our clients a wide array of services. These services include water and sewer utility installation, excavation, grading, aggregate supply, granular base installation, soil stabilization, concrete works, highway maintenance, snow clearing and winter maintenance.

We operate out of a modern, 8000 square foot office building and 12,000 square foot shop on 10 acres of land that is strategically located 2 kilometers north of Fort McMurray on Highway 63.

Throughout the years we developed long term relationships with many clients that include Municipal and Provincial Government agencies, private developers and industrial oil sands companies.

Corporate history of Volker Stevin Canada (VSC)

VOLKER STEVIN CORPORATE HISTORY

CORE VALUES

At H. Wilson we have worked hard to build a solid foundation of core values and guiding principles that enhance our organization's culture while striving to maintain our reputation as a construction leader, employer of choice, and excellent corporate citizen throughout the Fort McMurray region.

QUALITY WORK

We have built and maintained long-term relationships with our clients and partners over our many years in business. Our goal is to provide the highest quality of service in every project we support. We believe in providing quality workmanship, fair pricing and timely service that exceeds our clients' expectations.

SAFETY & ENVIRONMENTAL RESPONSIBILITY

Commitment to safety excellence and environmental stewardship is paramount to the day-to-day operation at H. Wilson. We train and support our employees in extensive safety protocols. Our clients and subcontractors are encouraged to share this same commitment to working safely and to environmental responsibility.

PROFESSIONALISM

We maintain the highest levels of professionalism, integrity, honesty and fairness in our relationships with our clients, associates, subcontractors and suppliers.

WHAT WE DO

From modest beginnings as a small contractor, completing driveways and small paving jobs, we've grown and expanded our services to a one-stop shop general contractor. We are well-equipped to complete small, quick turnaround projects, and have grown to become the go-to contractor for large, complex multi-faceted long-term projects as well.

For over 40 years in business, we have garnered extensive experience from Municipal, Provincial and Industrial projects that we have undertaken in the ever expanding Fort McMurray region.

ROAD CONSTRUCTION

Our Surface Construction Division is comprised of multiple crews capable and experienced in Asphalt Paving, Asphalt Cold Milling, Asphalt and Granular Base Pulverization, Cement Stabilized Subgrade, Conventional Subgrade Preparation, Granular Base Installation, Grading and Excavating, Concrete curbs and Sidewalks.

ASPHALT PLANT

Located 15 km north of Fort McMurray, we maintain and operate a state of the art asphalt plant capable of producing up to 200 tons per hour.

Our plant is equipped with two 100-ton Gencor Silos which allows us to combine and store various asphalt mixes at any given time.

We maintain our own in-house asphalt testing lab with the capability to maintain and control the quality of every ton of asphalt that is produced in our plant.

UNDERGROUND UTILITIES

Our Underground Utility Division is experienced in the installation, maintenance and repair of municipal utilities including Sanitary Sewer Mains, Water Mains and Storm Sewers.

A commitment to quality workmanship, safety and environmental responsibility is emphasized when working on any Municipal Utility.

Our crews are capable and experienced in the following:

- *Storm Sewer Installation – Concrete and PVC*
- *Water Main Installation – Including PVC, HDPE*
- *Water Main Appurtenances – Valves, Hydrants, Meter Chambers and Pressure Control Chambers*
- *Sanitary Sewer Mains - PVC*
- *Household Sanitary, Storm and Water connections*
- *Storm Ponds and Outfall structures*
- *Trenchless Pipe Installation*

EARTHWORKS/EXCAVATION

We have extensive experience that includes pre-grading subdivisions, precutting excavations for deep utilities, roadway grading and construction and excavations for deep underground utility installation.

With a modern fleet of equipment that includes graders, dozers and excavators, we have the equipment to handle projects of varying scopes and sizes.

ROAD AND GROUND MAINTENANCE

Snow clearing and ice control management operations ensure the safety of people, equipment and property. We view snow removal and ice control management as a preventative rather than a reactive measure.

Our highly specialized staff, and fleet of regularly maintained equipment ensure that snow removal at large sites is done with precision, efficiency and within specific time constraints.

INDUSTRIAL SITE CONSTRUCTION

We have extensive experience with paving and road construction on various oil sands industrial sites located in the Fort McMurray Area. We are familiar with the challenges and severity of working on such sites and are well-versed in the following types of projects:

- *Asphalt overlays and patching to roadways*
- *Milling and overlaying asphalt surfaces – roads and aerodromes*
- *Granular base installation*
- *Tank apron paving*
- *Emulsified tank spray*
- *Crack sealing*
- *Line painting*

Our Fleet of EQUIPMENT

H. Wilson maintains an extensive fleet equipment needed to undertake projects in various size and scope. Our equipment resources range from Excavators, Graders, Loaders, Compaction Equipment and more specialized equipment such Hydro Vac's, Asphalt Paving Equipment.

- **DOZERS**

Ranging in size from D3 to D8

CONSULTANT/ENGINEERING:
Urban Systems

YEAR(S) OF CONSTRUCTION:
June 2014 - November 2015

APPROXIMATE CONTRACT VALUE:
\$21,000,000.00

- SUBCONTRACTORS:**
- *AAA Striping*
 - *Northern Concrete Services Ltd.*
 - *Dunvegan Gardens*

- PROJECT OVERVIEW:**
- *20,900m² of asphalt pavement removal and disposal*
 - *2,600m of PVC water main installed – 150mm to 200mm diameter*
 - *1,450m of PVC sanitary sewer main installed – 200mm to 375mm diameter*
 - *1,220m of PVC storm sewer main installed – 450mm to 1200mm diameter*
 - *Installation of catch basins and manholes*
 - *2,800m of concrete curbs and sidewalks*
 - *Granular road base*
 - *5,000 Te of PG 58-28 asphalt concrete pavement*

Urban Infrastructure Rehabilitation

ALBERTA DRIVE

The Urban Infrastructure Rehabilitation project is a yearly program administrated by the Regional Municipality of Wood Buffalo to upgrade and replace municipal infrastructure such as underground utilities (water, sanitary sewer and storm sewer), concrete structures and asphalt roadways throughout the urban service area of Fort McMurray.

Alberta Drive is a residential subdivision located in the lower townsite of Fort McMurray.

Construction began in early summer of 2014 with completion in the Fall of 2015.

The project had several challenges in varying degrees that were overcome throughout construction. Poor underlying soil conditions, maintaining vehicle and pedestrian access, coordination of municipal operations and the overall management and phasing of such a large, complex project. All while trying to minimize disruption and social impacts to residents living in the area.

CASE STUDY 2

CUSTOMER NAME:
Imperial Oil Limited

CONSULTANT/ENGINEERING:
N/A

YEAR(S) OF CONSTRUCTION:
April 2013 - Ongoing

APPROXIMATE CONTRACT VALUE:
\$1,100,000.00

Syncrude Canada

SITE WIDE PAVING CONTRACT

Syncrude Canada’s Oil Sands project is part of the Athabasca Oil Sands deposit and is located 40 kilometres north of Fort McMurray. Syncrude is one of the worlds largest operators in the Oil Sands industry with over 50 years of operation in the Fort McMurray region. An economic engine for the Canadian economy, Syncrude Canada employs thousands of its own employees and contractors locally and throughout Canada to operate it’s Mildred Lake and Aurora Mining Operations.

H. Wilson Industries has a long history at Syncrude and has provided the company with site-wide paving services at their Mildred Lake and Aurora projects for over 30 years. The core services that we provide Syncrude Canada are focused on Asphalt Paving, Concrete Repairs, Granular Base Installation, Pavement Markings and Aggregate Supply for summer and winter operations.

Projects include Milling and Overlaying Roads, Parking Lot Paving, Pedestrian Walkways and Tank Aprons throughout various locations within the mine operating areas, process plant areas, tank farm and storage and laydown areas.

The H. Wilson crew was very responsive. We knew that it was short-term pain for long-term gain. The guys did everything they could to minimize the impacts to our daily lives. They were very friendly and accommodating.”

*- A FORT MCMURRAY RESIDENT REGARDING
WORK DONE IN THE LOWER TOWNSITE*

We live and play here

WE'RE A PART OF THE COMMUNITY

We recognize the importance of building healthy communities, and work to achieve this through our support of a number of worthwhile charities and community groups.

AT H. WILSON, WE ARE PROUD TO SUPPORT:

- *Fort McMurray Food Bank*
- *Fort McMurray Oil Barons*
- *Fort McMurray Regional Hospital & Health Foundation Festival of Trees*
- *Fort McMurray Minor Hockey Association*
- *Canadian Cancer Society*
- *Fort McMurray Minor Baseball*
- *Keyano College*
- *Regional Recreation Corporation of Wood Buffalo*
- *Vista Ridge*

SAFETY STATEMENT

H. Wilson considers the safety and health of its workers to be of prime importance and we are proud of our Workplace Safety Certificate of Recognition (COR).

We continue to establish and maintain effective policies, programs, and procedures that will reduce work related accidents and injuries. In establishing and maintaining such policies, programs and procedures, Government Occupational Health and Safety Acts and their regulations are observed as minimum requirements.

We are proud of our COR and we actively comply with the following safety programs:

- *ISNetworld*
- *Avetta (formerly PICS Auditing)*
- *ComplyWorks*
- *CQ Network (CanQual) Contractor Safety Program Compliance*

ENVIRONMENTAL STATEMENT

Volker Stevin Canada and H Wilson are dedicated to strengthening our current business. Starting from a base of operational excellence, we will work towards growth, sustainability, integrity and environmental stewardship.

Volker Stevin Canada is owned by Royal VolkerWessels Stevin N.V. (VolkerWessels).

WHY CHOOSE US

Local. Reliable. Affordable.

With extensive experience and a reputation for excellence, we are the best choice for your next project.
